ANALYST1®

Outsmart cyber threats

Analyst1's advanced Threat Intelligence Platform (TIP) was built by industry veterans for organizations to identify, mitigate, and respond to cyber risks.

Automated data ingestion and investigations transform security operations through superior threat analysis that also analyzes the effectiveness of countermeasures in a single platform.

Enhance security posture.

Mitigate risks.

Improve incident response.

Real time threat monitoring

Advanced data collection and analysis

Collaboration and info sharing

Threat hunting capabilities

Customizable and scalable

Threat intelligence reporting

	<30s	10+ years	100%
	From attack to action	Breaking TIP standards	Customer retention

Analyst1 is an industry-leading cybersecurity solution provider that specializes in advanced threat intelligence.

Analyst1 helps clients in every major vertical transform raw intelligence into actionable insights that improve their security outcomes. Some of the most sophisticated government and commercial organizations use Analyst1's platform to investigate threats, manage vulnerabilities, and dramatically reduce response time.
